

Consultation on Amendments to the Tower Siting Process

From [ISED's Website](#):

ISED [...] is [...] initiating a consultation on proposed amendments to the antenna tower siting requirements [...] to reduce regulatory burden on tower proponents.

Here's a 47 minute long video discussion of the proposed changes:

Video

What you can do:

1. Write a response echoing RAC and RAQI's position in electronic format (Microsoft Word or Adobe PDF).
2. Send it by July 16, 2026 to: spectrumoperations-operationsduspectre@ised-isde.gc.ca
3. Cite consulation #: DGS0-001-26

As all comments will be posted on the departmental website, those making submissions are responsible for ensuring that they do not contain confidential or private information.

Update

Here's more info from [RAC's website](#) published on June 15th.
